Reducing Mis-shipments Checklist
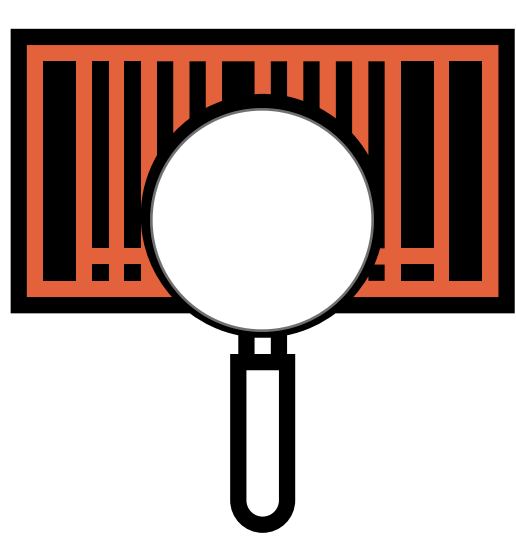

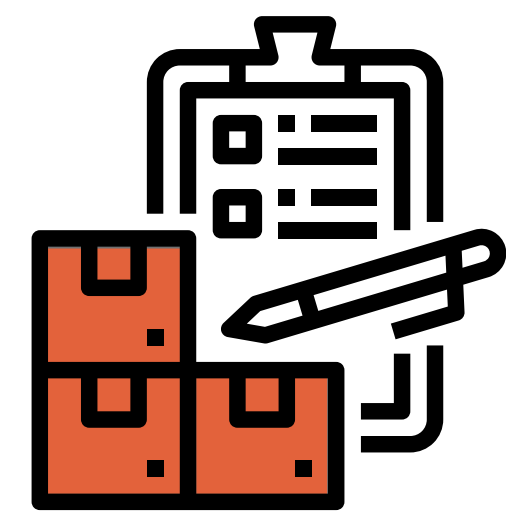

WHAT IS ORDER MIS-SHIPMENT

Mis-shipments can be nothing short of catastrophic for eCommerce Businesses. With customer loyalty on the line, sending out incorrect orders can cost you more than just dollars!
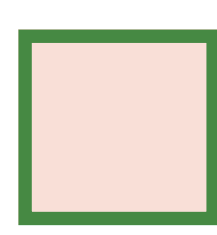

01 REGULAR INVENTORY CHECKS

Inventory mismanagement is a leading cause of mis-shipments. Make sure regular & accurate inventory checks happen regularly.
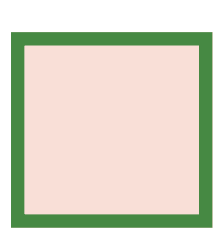

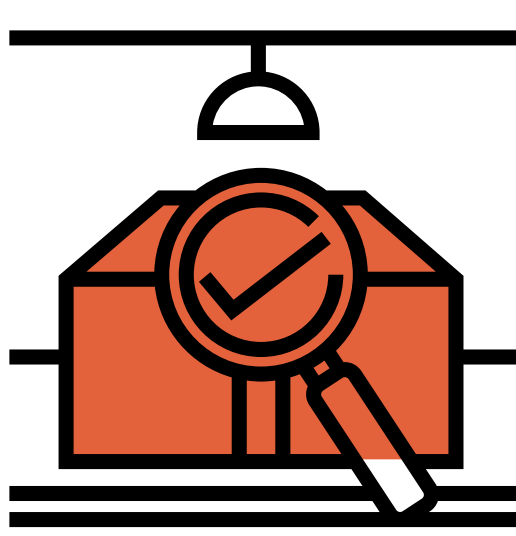

02 SCANNING FOR ACCURACY

Barcode scanners help pickers/packers/shippers ensure they choose the right items every time.

03 INVEST IN AN ORDER MANAGEMENT SYSTEM

Investing in a robust Order Management System easily reduces and resolves human errors.

04 QUALITY CONTROL SYSTEMS

Leading quality control systems confirm the condition and accuracy of every order before being shipped to the customer.

05 TRANSPARENT COMMUNICATION

Develop strong relationships with your major carriers and keep communication lines open with them.

We Should Talk

Were you able to check all the boxes? Mis-shipments can seem unavoidable, but with XPDEL's cutting-edge technology and team of experienced professionals, we can help make mis-shipments a thing of the past.
